Session 2017-2019

1. Please give marks on the 5 point scale on the following questions
(A = very good, B = Good, C = Satisfactory, D = Poor, E = Very Poor)
 - Scope of Catering Fundamental Knowledge through the Curriculum : A
 - Depth and Coverage of Curriculum on application-based aspects : A
 - Relevance of Curriculum on application-based aspects : A
 - Students' Learning Outcome on application-based aspects : A
2. Please write general qualitative comments on the curriculum (within 100 words) :

Emami Cement have a very good experience in working with the students of Ramakrishna Mission Vidyamandira, Belurmath in both the cases, those whoever came for in-plant training and those who are working with us as well. We found that the course is fair enough to make a good industrial professional in terms of fundamental basic knowledge and relevance with the actual application in industry. The knowledge depth of the students are appreciable. The best part of the students who are from that particular institution is open and capable for learning new things and deliver the results in very short training in actual job areas.

Emami Cement believes that the students selected from Ramakrishna Mission Vidyamandira, Belurmath will become a great asset of our organisation in due course of time.

 - Students' Learning Outcome on application-based aspects : A
2. Please write general qualitative comments on the curriculum (within 100 words) :

I was very impressed at the level of rigour and effort that was given to achieve the right balance in the curriculum. I feel that in mathematics, the proper sequencing of the courses is extremely vital - a lot of thought was given to achieve this. The guidelines on the applied areas were well provided - and will go a long way to serve the desired objective of helping the student relate to the usage in practical applications and think of areas of applicability.
